

CANADIAN POLITICS AND GOVERNMENT

Have you ever wondered why the Senate exists? How our politicians navigate tricky relationships with other countries, such as the United States? Or why MPs gather in the House of Commons once a day to yell at each other!? In this presentation, Dr. Royce Koop and Dr. Ardith McGeown Plant of the University of Manitoba Centre for Social Science Research and Policy will explore these and other topics with you.

Bring your questions about Canadian politics and government!

Munroe Library
