

Maker-in-Residence

Cato Cormier

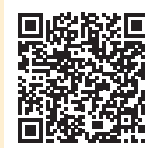

Tactile Paper Arts and Crafts

Collaborate on an engineered tactile paper artwork with Maker-in-Residence Cato Cormier. In this workshop, you will make a card with 1 or 2 moving elements like the ones in children's picture books. Then use paint and pencil crayons to adorn it. This program is for children and caregivers, so caregivers must be present for the child to participate and vice versa. All materials provided. **Ages 6-12 with a caregiver.**
