EXISTING BASEMENT (LOOKING TOWARDS WASHROOMS)

PROPOSED BASEMENT PUBLIC SEATING

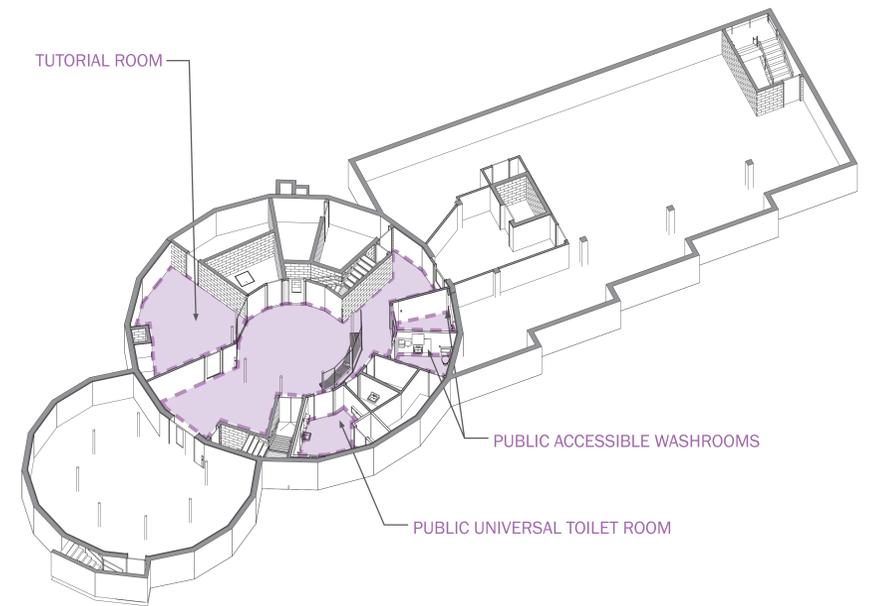

PROPOSED BASEMENT SEATING AREA & TUTORIAL ROOM

The largest program room at the St. Vital library is located in the basement, accessible by the elevator or by stairs. The 2016 library refresh will provide the sixty-person multi-purpose room with fresh paint, carpet and new glass doors. A new tutorial room with capacity for ten people will be added in the basement to increase opportunities for the public to reserve space for meeting and study at the St. Vital library. Glass wall panels and doors will be used to increase the feeling of transparency and openness in the basement. A new seating area with a bench will be created in the adjacent space to the program rooms. The basement will have a total of five washrooms, including a second UTR.
