TRAFFIC SAFETY TIPS

We all have a role to play in making our roads safer. Whether walking, biking, or driving we all use the roads to get where we're going, and we all deserve to get there safely.

WALK SAFE

Cross the street at crosswalks.

Always cross the street at an intersection or crosswalk.

Crosswalks and traffic lights let drivers know they need to stop, so pedestrians can cross the street. Never cross in the middle of a block, between parked cars, or diagonally across an intersection.

Look both ways.

Look both ways before crossing the street. Look left, right, then left again. Don't cross until all cars are stopped. Wait until traffic stops and make eye contact with drivers before you cross.

Watch out for back lanes and driveways.

When walking on a sidewalk, look for cars approaching from back lanes or pulling out of driveways. It can be difficult for drivers to see in these areas, especially if they are backing up. Always wait for cars to fully stop before you walk across.

BIKE SAFE

Always wear a helmet.

Your head is your most important body part! Protect it. When riding your bike, using a scooter, or skateboarding, always wear a helmet. In Manitoba, it's the law for kids and youth under 18 to wear a helmet when biking.

Use bike lights.

Lights help others on the road see you. Use a white light on the front and a red light on the back.

Signal where you want to go.

Use hand signals when biking to let others know where you want to go.

DRIVE SAFE

Slow down for a smooth trip.

Drive the posted speed limit, or slower when roads are busy, wet, snowy or icy. The faster you drive, the less time you have to react. Slow down for a smoother and safer trip.

Let pedestrians cross first.

People walking always have the right-of-way at a crosswalk or intersection. It's the law for drivers to yield to pedestrians at a crosswalk. When you see a pedestrian, stop and let them cross.

Stay focused.

Driving is complex and requires many quick decisions. Give your brain a break – choose music and a route before leaving and focus on driving when you're behind the wheel.
